Publication record and editorial activity

I have a proven track-record of publishing about 100 papers, including more than 40 papers in international peer-reviewed journals, 37 book and monographic volume chapters and 18 papers in journals not recorded in Scopus and WoS. The majority of my contributions are published in journals that score first quartile within Geosciences and related disciplines. I also published two papers in popular science magazines. I edited a book on multidisciplinary Geosciences in honour of A. Desio and I am currently editing a special issue of the Journal LANX (edited by the University of Milano) on the concept of *Human-environmental nexus in the Bronze Age of Italy*, originating from the meeting I co-organised celebrating the 30 years of excavation of the Terramara di Poviglio Bronze Age site. I am co-editing a book on *Landscapes and Landforms of the Central Sahara* that will appear in the Springer's Landscape of the World book series.
