

Dott. Eugenio Demartini – Curriculum Vitae

Brief presentation

Eugenio was born in Milan in 1983. Graduated in Food Sciences and Technologies at the University of Milan. In 2011 he earned a PhD in Technological Innovation for Environmental and Agro-Food Sciences - Curriculum of Agricultural Economics and Policy - at the University of Milan. The main themes of his studies are consumers behavior and preferences, fisheries and agricultural biodiversity policy by means of data reduction techniques and agricultural sustainability assessment. He worked as a teaching assistant in Microeconomics and Maths courses in the Faculty of Veterinary Medicine and Agriculture of Milan and he has been professor of Mathematics and Information Technologies at the University of Makeni (Sierra Leone). He worked as consultant for a dairy factory and scientific direction for the first edition of [SILVA 2014](#), a thematic fair dedicated to hunting, fishing and environment. He is now researcher at the Department of Health, Animal Science and Food Safety (VESPA) of the University of Milan, teaching Economics at Veterinary Biotechnologists.

Eugenio co-founded and is the President of the non-profit Cultural Association Lettera A. He organizes activities of valorization of environmental heritage and writes for the webzine [La lettera A](#). In 2010, with four of his friends, he placed among the ten finalists out of more than 150 participants to the first Accenture Italian Foundation prize for ideas “Eat well, live better” with a project called [www.italianfoodisbetter.com](#). In 2014 has been selected as young researcher for the “[EXPO-School](#)”, held by Feltrinelli Foundation in Milan.

Education

2008 – Degree in Food Science, University of Milan

Academic Activity

2013 to date - Researcher*
